

Research Associate (Limited Term)

Faculty/Division: Faculty of Applied Science & Engineering

Department: Materials Science and Engineering

Campus: St. George (downtown Toronto)

Description:

Looking for a research associate (RA) who is driven, and motivated to pursue research in the field of process metallurgy and especially in continuous casting. The RA would be working under the supervision of Assistant Professor Kinnor Chattopadhyay and be responsible for conducting say lab experiments, writing papers , and supervising graduate students.

Minimum Qualifications: PhD

Education: PhD in water modelling and mathematical modelling

Experience:

- Process metallurgy and modelling
- Experience with continuous casting and belt casting
- At least five years of research associate experience at a Canadian university

Skills: water modelling, CFD modelling, computer coding, supervision of students, carry out research independently

To Apply, send your CV to kinnor.chattopadhyay@utoronto.ca

Schedule: Full Time

Appointment Type: Limited Term (5 months)

Salary: \$41,329 - \$77,492

Job Posting: September 22, 2015

Job Closing: September 29, 2015

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, and persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas.
