

Women in 3D printing, Toronto Chapter

Women in 3D Printing is an organization dedicated to promoting, supporting and inspiring women to use Additive Manufacturing technologies. Join us every month, for a casual meeting. For the Premiere of the Toronto Chapter, we are pleased to have our guest speaker **Professor Mihaela Vlasea from University of Waterloo!**

Bringing Designs to Life

Prof. Mihaela Vlasea

Mechanical and Mechatronics Engineering Department
University of Waterloo

Thursday, April 18th, 2019

184 College Street, Toronto

Room# WB 130

17:30 PM- 19:00

Dr. Vlasea is the Associate Research Director of the Multi-Scale Additive Manufacturing Laboratory. Her research focuses on innovative design, process optimization and adoption of new materials for powder bed fusion and powder bed binder jetting additive manufacturing processes.

We thank our sponsor, **UIPatent**, for enabling this event. **UIPatent** is an intellectual property law firm which provides patent and trademark services.

The event is Free, please RSVP:
